Vehicle-Specific Bolt-On Kits

Kleinn Air Horns pioneered the concept of 100% Bolt-On Vehicle Specific Onboard Air™ Systems with Train Horns. Now you can easily install an entire air system and train horn in less than half the time required with a universal system. All with No Drilling, No Cutting and No Modifications to your vehicle. Each system is specifically designed to bolt to existing holes and vehicle structures using custom mounting brackets Made In the USA. The high performance air compressor and matched air tank not only blast the horns but provide an Onboard Air™ system with quick connect tire inflator capable of airing tires as well as powering air bags and small air tools (except GMTRK1). Each kit comes complete with everything needed for a professional looking installation.

JKOBA HIGH PERFORMANCE ONBOARD AIR™ SYSTEM 2007–2017 JEEP JK WRANGLER 4-DOOR
The JKOBA features the first fully submersible WATERPROOF 12-volt automotive air compressor. This kit was purpose built for serious Jeepers. The high volume 150 PSI compressor is rated for up to 37” tires. The system includes a steel mounting cage with integral skid plate and a remote mount quick connect tire inflator with gauge. Want more volume? Add the JK6450 compressor upgrade and get a second waterproof compressor and air two 37” tires at the same time.

- Fully Waterproof High Output 12-Volt Compressor
- Heavy-Duty 150 PSI Compressor Produces 1.76 CFM
- Remote Snorkel Air Intake System With Air Filter

JK6450 COMPRESSOR UPGRADE KIT FOR JKOBA
The JK6450 Compressor Upgrade for the Kleinn JKOBA Onboard Air™ system adds a second WATERPROOF compressor to the JKOBA to double the output of the system allowing you to air two 37” tires at the same time as well as provide added air volume for air tools.

- Heavy-Duty Model 6450RC Waterproof Air Compressor
- Direct Bolt-On Upgrade for JKOBA Onboard Air™ System
- Remote Quick Connect Coupler Mount
- Quick Connect Tire Inflator With Locking Air Chuck And Storage Bag

6450RC FULLY SUBMERSIBLE WATERPROOF AIR COMPRESSOR

The only fully submersible WATERPROOF 12-volt air compressor for automotive applications. The heavy-duty, high output air compressor is not just water resistant, but waterproof. The 100% duty-cycle compressor is rated at 150 PSI and includes a snorkel air intake system with filter to locate the air intake up and away from dirt, water and debris, insuring years of trouble free operation.

JK220 JEEP JK WRANGLER TRAIN HORN WITH MOUNT
Designed to work with the JKOBA, this horn mounts on the cross member above the rear axle. Can be used with other onboard air systems that use a 1-gallon or larger air tank. Comes with Model 220 horn, custom mounting bracket and hardware.

TUNDRA-230 ONBOARD AIR™ SYSTEM W/ TRAIN HORN 2007–2016 TOYOTA TUNDRA CREWMAX

Pro Blaster™
COMPACT AIR HORN KITS

Take the guesswork out of putting together a train horn kit. Kleinn offers air horn packages that include all parts necessary for a complete system installation. Each of our compact air horn and train horn kits include:
- Kleinn air horn or train horn
- Air compressor (water/dust resistant)
- Heavy duty air tank
- Wiring/Installation kit
- Horn push-button
- Heavy duty nylon tubing
- All necessary fittings & hardware
- Detailed Installation Instructions.

HK1

Our most compact air horn kit. Two chrome all-metal trumpets 8.5" and 6.5" in length. Compact with high pitch, painful sound. Includes an easy-to-fit 120 PSI, 0.5 gallon air system.

HK1 DIMENSIONS
- Horn: 8.25" x 6.5" x 3"
- Compressor: 6.2" x 3" x 5"
- Tank: 8" x 6" x 8"
- Output: 151.4 dB @ 100 PSI

HK2

Dual truck horn with all-metal trumpets 16.75" and 14.5" in length. Think fire truck or ambulance horn but LOUDER! Flat mounting design allows for easy mounting behind the grille, engine compartment, or on frame rails. Includes an easy-to-fit, 120 PSI, 0.5 gallon air system. Available in chrome or XCR2.0™ (black finish P/N HK2-1).

HK2 DIMENSIONS
- Horn: 17" x 8" x 4"
- Compressor: 6.2" x 3" x 5"
- Tank: 8" x 6" x 8"
- Output: 146 dB @ 100 PSI

HK3

Compact triple train horn with all-metal trumpets 14.25", 11.5", and 9.25" in length. Produces a startling blended three-tone blast – guaranteed to get attention. Includes an easy-to-fit, 130 PSI air compressor and 1 gallon tank for more blast time. Available in chrome or XCR2.0™ (black finish P/N HK3-1).

HK3 DIMENSIONS
- Horn: 14.5" x 7" x 6"
- Compressor: 7" x 3.25" x 6.75"
- Tank: 11" x 6" x 8"
- Output: 148.7 dB @ 100 PSI

HK4

Quad air horn with four tuned trumpets 13", 11", 8.5", and 7" in length. Additional trumpets create a more fully-rounded tone while being compact enough to fit almost any vehicle. Includes an easy-to-fit, 130 PSI, 1 gallon air system. Available in chrome or XCR2.0™ (black finish P/N HK4-1).

HK4 DIMENSIONS
- Horn: 14.5" x 7" x 7"
- Compressor: 7" x 3.25" x 6.75"
- Tank: 11" x 6" x 8"
- Output: 149.2 dB @ 100 PSI

HK5

Dual Black ABS trumpets are 15.5" and 10.5" inches in length. Trumpets mount separately, each with its own mounting bracket & solenoid, making them easy to install & freakishly loud. Designed for extreme durability, easy fit & extreme sound. Includes a 150 PSI, 1.5 gallon air system and all parts needed for installation.

HK5 DIMENSIONS
- Horn 1: 10.5" x 4.5" x 6"
- Horn 2: 15.5" x 6.5" x 6.5"
- Compressor: 8.25" x 4" x 6.25"
- Tank: 15" x 6" x 8"
- Output: 154.2 dB @ 150 PSI

HK-EURO

Dual Black ABS trumpets are 15.25" and 10" inches in length. Trumpets share an air supply via dual solenoid and a switching relay, creating a dual oscillating European sound. Includes a 150 PSI, 1.5 gallon air system and all parts needed for installation.

HK-EURO DIMENSIONS
- Horn: 15.5" x 11.5" x 6.5"
- Compressor: 8.25" x 4" x 6.25"H
- Tank: 15" x 6" x 8"
- Output: 153.4 dB @ 150 PSI

www.kleinn.com - (520) 579-1531 - Fax: (520) 579-1528
**HK6**

Three tuned trumpets, 16", 14" and 11" in length. Chrome-plated high impact ABS construction. There's no mistaking the genuine train horn sound of the HK6. When these horns sound off, you'll swear that you're standing on the tracks. Includes a 150 PSI, 1.5 gallon air system and all parts needed for installation.

**HK9**

Our biggest train horn kit! The Demon™ Model 730's massive & detachable XCR 2.0™ spun steel trumpets (18.25", 14.75", 10.5") allow tons of installation options. Includes a high output 150 psi, 100% duty compressor, 5 gallon tank and tire inflation kit with storage bag. Can power your horns as well as other accessories like air bags and small air tools. For the clinically insane among you, the 730 can be upgraded by adding an Ultra BlastMaster™ valve upgrade (P/N 6890 on pg. 14) – making it the loudest, largest and most aggressive train horn on the market.

Vehicle-Specific Bolt-On Kits

Vehicle-Specific Systems  Now you can easily install a complete Train Horn System without trying to figure out where to put it all and what to relocate! We’ve done all of the work for you by designing bolt-on brackets that allow the air compressor and air tank to bolt on, as well as providing another bracket to securely mount your train horn. We manage to do all this using factory holes so you’ll never drill into your new truck again! Direct Bolt-on kits typically cut the installation time needed for a system installation by more than half and the result is positively professional, every time!

CHEVY SHAKER™ BOLT-ON, PLUG & PLAY AIR HORN SYSTEM  The Chevy Shaker™ produces an incredibly loud 154.2 dB train horn sound and bolts directly into 2007 to 2013 Chevrolet/GMC half-ton trucks and SUVs. This ready-to-install, 100% bolt-on kit comes with a powder-coated, custom fit, USA-made steel mounting plate and air tank that are pre-assembled with a complete high performance 150 PSI air system. The system simply drops in and bolts into factory holes in the empty second battery position in your truck or SUV engine compartment. Bolt the horns on to existing holes on the driver’s side frame, make two plug-in connections, connect the air line and you’re done! The Chevy Shaker™ is 100% plug & play for ‘07-‘13, 1500 series GM trucks & SUVs with no drilling required. Every Chevy Shaker™ comes with everything needed for a flawless installation.

The CHEVY SHAKER™ Includes:
• 150 PSI heavy duty air compressor - Pre-installed & wired in the USA!
• Dual trumpet train horn with TWO solenoid valves
• 1-gallon steel air tank - Pre-installed & made in the USA!
• Custom powder-coated steel system mounting plate - Made in USA!
• Custom powder-coated steel air horn bracket - Made in USA!
• All tank fittings pre-installed & sealed with Kleinn Air Horn Juice™
• All wiring pre-installed for plug & play - Assembled in USA!
• No cutting, drilling or welding required!
• Hardware, fuse and complete instructions included

Train Horns

TOO LOUD?
TOO BAD!

Kleinn
AIR HORNS

Our Biggest, BADASS AIR HORNS!

MODEL 730

The Demon™ Model 730 features flat rack detachable design, spun steel trumpets (18.25", 14.75", 10.5") & extreme flow, heavy duty brass solenoid valve. This is the loudest, largest and most aggressive train horn on the market, bar none. XCR 2.0™-coated black coating ensures that they'll withstand heat, sun, UV & salt spray. Fully upgradeable with our Ultra BlastMaster™ P/N 6890 (p.14) for a truly earth-shaking experience.

MODEL 630

If you’re looking for a loud, nasty horn, look no further. The Kleinn Model 630 is the ultimate train horn for your car, truck or SUV. The model 630 consists of three chrome-plated copper trumpets with oversized bells for a deep, rumbling train horn sound. The trumpets can be separated for easy installation, and the 630 can be upgraded with the BlastMaster™ Upgrade Kit P/N 6880 (p. 14) to make it go even LOUDER!

MODEL 502, 501, 500

There’s no mistaking that genuine train horn sound. Loud and deep, Kleinn 500 Series train horns will turn heads and move people — big time! All 500 Series horns have reversible trumpets so you can get a realistic multi-directional effect, just like a real locomotive. Heavy duty steel mounting brackets allow for under-body or rooftop mounting. When these horns sound, you’ll swear that you’re standing on railroad tracks.

MODEL 502

Three tuned trumpets, 16", 14", 11". Chrome-plated spun copper trumpets. Includes upgraded VX6003 solenoid valve with wider orifice and 1/2" tubing for increased volume.

MODEL 501

Three tuned trumpets, 16", 14", 11". Chrome-plated spun copper.

MODEL 500

Three tuned trumpets, 16", 14", 11". Chrome-plated high impact ABS.

IF YOU HAVE SENSITIVE EARS OR A LOW PAIN THRESHOLD, DO NOT GET THESE HORNs, THEY ARE EXTREMELY LOUD!!! THESE HORNs WILL CAUSE OTHERS TO GIVE YOU THE MIDDLE FINGER AND/OR OTHER OFFENSIVE GESTURES. KEEP OUT OF REACH OF CHILDREN.

  - Overall Height (in.): 6, 6.3
  - Max Input (psi): 160
  - Output (dB) @ 100 psi: 152.7
  - Output (dB) @ 150 psi: 154.2
  - Solenoid: (2) Vortex 4
  - Voltage: 12-Volt DC
  - Shipping Weight: 6.2 lbs

**MODEL 220**

Two separate horns, 15-1/2" and 10-1/2". Each has its own mounting bracket and solenoid.

Roof-Mount Over-The-Road Truck Horns

**401**

- **Model 401**
  - Construction: Chrome Plated Spun Copper
  - Overall Length (in.): 14.75
  - Overall Width (in.): 7"
  - Overall Height (in.): 4.20"
  - Max Input (psi): 150
  - Output (dB) @ 100 psi: 146
  - Output (dB) @ 150 psi: 153.5
  - Shipping Weight: 4 lbs

**MODEL 401**

Our roof mounted dual horn features 15" & 13" trumpets to create a deafening blast of over-the-road fury. Air Valve not included.

**411**

- **Model 411**
  - Construction: Chrome Plated Spun Copper
  - Overall Length (in.): 24"
  - Overall Width (in.): 6"
  - Overall Height (in.): 6"
  - Max Input (psi): 150
  - Output (dB) @ 100 psi: 149.5
  - Output (dB) @ 150 psi: 147.4
  - Shipping Weight: 5 lbs

**MODEL 411**

If you’re the King of the Road – why not sound like it? Ditch your puny, not-so-manly horns for a big-ass 24" Roof Mounted monster. Air Valve not included.

**412**

- **Model 412**
  - Construction: Chrome Plated Spun Copper
  - Overall Length: 25"
  - Overall Width: 9"
  - Overall Height: 6"
  - Output (dB) @ 100 PSI: 149.8
  - Output (dB) @ 150 PSI: 148.2
  - Shipping Weight: ~7 lbs

**MODEL 412**

Our newest roof mount horn features a square end bell with integrated horn cover to keep the worst that the road can throw at you out of your horns. Air Valve not included.
BIG NOISE... small space

If you’re working in limited space, you don’t have to fear... but everyone else should! Our compact horns can fit in almost any vehicle and deliver the big sound you expect from Kleinn. Don’t be fooled by their size — they pack a punch that will leave your head spinning. Easy to fit in glistening chrome or black finish & featuring extreme sound.

**MODEL 225 DUAL EURO TONE**

For those looking for a horn sound that’s unlike anything you’ve heard here in the States, Model 225 provides an alternating dual tone that is sure to turn heads and remind others of a classic European sound. Made from high impact ABS with trumpet sizes of 15” & 9.75”. Features dual solenoids and a switching relay that make the horn tone oscillate.

**Model 225**
- **Construction:** High Impact ABS
- **Overall Length (in.):** 15.25”
- **Overall Width (in.):** 10”
- **Overall Height (in.):** 7”
- **Max Input (psi):** 160
- **Output (dB) @ 100 psi:** 160.1
- **Output (dB) @ 150 psi:** 152.8
- **Solenoid:** (2) Vortex 4
- **Voltage:** 12-Volt DC
- **Shipping Weight:** 6.2 lbs

**Model 141, 141-1**

- **Construction:** Chrome-Plated Zinc Alloy, XCR™-Coated Zinc Alloy
- **Overall Length (in.):** 14.5”
- **Overall Width (in.):** 7”
- **Overall Height (in.):** 7”
- **Max Input (psi):** 150
- **Output (dB) @ 100 psi:** 151.4
- **Output (dB) @ 150 psi:** 153.8
- **Solenoid:** Vortex 4
- **Voltage:** 12-Volt DC
- **Shipping Weight:** 5.5 lbs

**141**

Four tuned trumpets, 13”, 11”, 8-1/2” and 7”.

www.kleinn.com  ■  (520) 579-1531  ■  Fax: (520) 579-1528
**Compact Horns**

**BIG NOISE... small space**

**MODEL 130, 130-1**
Three tuned trumpets 14-1/4”, 11-1/2” and 9-1/4”.

**MODEL 102, 102-1**
Two spun copper trumpets 16-3/4” and 14-1/2”.

**MODEL 101**
This is the same horn we feature in our Jeep TrailBlaster™ kits. It's been so popular, we've decided to offer it as a standalone. Dual XCR2.0 trumpets 10” & 7.5” in length.

DIRECT DRIVE HORN PACKAGES
Our Direct Drive horn sets are a great, simple upgrade for a factory horn. They come as a complete kit, ready for an easy install with a direct drive compressor, mounting hardware, and relay. The chrome-plated metal trumpets will not crack or break like lesser products with thin plastic trumpets. They are also great for use with car alarms or on motorcycles.

HOGKIT-1™ for Harley Davidson
For all 1979 to current Harley Davidson motorcycles with classic horn cover, our 100% bolt-on air horn system for Harleys replaces the weak factory horn with a much louder dual-trumpet direct-drive horn. Reuses your factory “cowbell” horn cover to keep that classic Harley look. Everything needed for installation is provided.

HOGKIT-1
Overall Length: 14"
Overall Width: 4.5"
Overall Height: 7.25"
Output: 132 dB
Compressor: 12-volt Direct Drive
Shipping Weight: 7 lbs

Now Available in Black - HOGKIT-1BK

Marine One™ STAINLESS STEEL ELECTRIC HORN
Introducing the horn that can withstand any environment. With all stainless steel construction, Marine One™ only needs power, ground and a button for operation. Installs easily with included stainless steel bracket and high quality hardware. Perfect for salt or freshwater boats, and all vehicles with 12-volt DC available.

Model 6126
Dual trumpets, 8-1/2” and 6-1/2”. High pitched and painful.

Model 6127
Single 15” trumpet for a deeper sound.

Model 6126
Construction: Chrome-Plated Zinc Alloy
Overall Length (in.): 8.25"
Overall Width (in.): 6.5"
Overall Height (in.): 3"
Output (dB): 132
Compressor: 12-volt direct drive
Shipping Weight: 3.3 lbs

Model 6127
Construction: Chrome-Plated Spun Copper
Overall Length (in.): 15.6
Overall Width (in.): 3.8
Overall Height (in.): 3.8
Output (dB): 131
Compressor: 12-volt direct drive
Shipping Weight: 4 lbs

Marine One™
Construction: Stainless steel
Overall Length (in.): 19"
Overall Width (in.): 8"
Overall Height (in.): 4"
Voltage: 12-Volt DC
Dual tone: 330Hz & 406Hz
Output: 118 db
Shipping Weight: 5 lbs

No compressor or tank needed. Stainless steel mounting bracket included. Ideal for salt or freshwater boats, cars, trucks and UTVs.
Train Horn System Upgrades

**BLASTMASTER™ UPGRADES**

**6880**
BLASTMASTER™
For Model 230
The Beast™ &
Model 630
Train Horns

**MODEL 6880 BLASTMASTER™**
Push your model 230 or 630 horns to the MAX with the BlastMaster™ air flow kit. The BlastMaster™ includes two extra solenoids, oversized 1/2” air line, and all the other fittings and tubing required to put a separate solenoid on each trumpet. By putting a solenoid on each trumpet, you’ll triple the air flow into the system. Because the solenoids are placed right at the base of the trumpets, each of the horns gets immediate & maximum pressure...boosting the sound output to a mind-blowing level.

**MAKE IT LOUDER!!!**

**6890**
ULTRA BLASTMASTER™
For Model 730 Demon™
Train Horns

**MODEL 6890 ULTRA BLASTMASTER™**
For Model 730 train horn only. Increase air flow and push the Model 730 Demon™ to unheard of decibel levels. The Ultra BlastMaster™ provides everything you need to add an additional two VX9003 solenoid valves to your Model 730 Demon™. Adding two more solenoids allows each trumpet to have a dedicated air source for dramatically increased flow and a train horn that will push your Demon™ over the edge. Prepare your eardrums; they’re screwed.

**VX7003-HK**
Vortex Valve Upgrade Kits
VX7003-HK  VX6003-HK

The more air volume you can deliver to an air horn, the louder it will be. Upgraded Vortex valves push more air flow than standard valves and work great for air suspension use up to 300 PSI. Includes Vortex valve, 1/2” air tubing, and required fittings.
All-In-One Air Systems

Our 6100 Series compressor systems are easy to install and great for powering any of our air horns. The compact design makes them perfect for use in both cars and trucks. Each of these compressors comes complete with a pressure switch, air pressure gauge and air fittings pre-installed on the tank so you can get to honking in no time.

MODEL 6120
All-in-one 110 psi onboard air system with pressure gauge and .80 Gallon tank. Just give it 12-volts and it’s ready to go. Designed for for upright installation in a clean & dry location.

Sealed Air Systems

Kleinn Heavy Duty Air Systems are designed to get the maximum sound out of your horns. All compressors are sealed and moisture & dust resistant - which means they can be chassis-mounted. All kits include our “Snorkel System” and each employs a check valve to prolong the life of the compressor. Kleinn high performance compressors fill tanks faster than typical air compressors.

MODEL 6260 Light Duty, Universal Onboard Air System
Our most compact and affordable sealed air system. 120 psi max pressure with a .5 gallon tank.

MODEL 6270 Light Duty, Universal Onboard Air System
Higher pressure and higher capacity means a longer, louder blast! 130 max psi compressor with 1 gallon air tank.
Sealed Air Systems

HIGH PRESSURE AIR SYSTEMS designed to get the maximum sound out of your horns. The compressors are sealed and moisture/dust resistant, which means mounting on the underside of a vehicle is no problem. The systems also include the “snorkel system” and check valves to prolong the life of the compressors. High output minimizes the time it takes to recharging the tank.

MODEL 6275 Medium Duty, Universal Onboard Air System
Get a lot of power from a small space. This kit delivers the 150 psi pressure you need to get the maximum output from your horns with only a small amount of mounting space required. Perfect for frame rail mounting in almost any car or truck. Includes a 150 psi air compressor, 1.5 gallon air tank, and all the necessary fittings & hardware.

Model 6275
Two-piece tank & compressor system
Compressor Length (in.) 9.25
Compressor Width (in.) 4
Compressor Height (in.) 6.5
Tank Length (in.) 21
Tank Width (in.) 8
Tank Height (in.) 10

Thermal Protection Yes
Shipping Weight 27 lbs

MODEL 6350 Heavy Duty, Universal Onboard Air System
The model 6350 is our best-selling onboard air system. It includes a 150 psi, 100% duty cycle compressor, and a 3 gallon air tank that can power your air horns as well as other accessories like air bags and small air tools. The kit also includes a quick-connect tire inflation kit with a 30’ coil hose, tire chuck and storage case.

Model 6350
Two-piece tank & compressor system
Compressor Length (in.) 9.25
Compressor Width (in.) 4
Compressor Height (in.) 6.5

Amp Draw 21
Thermal Protection Yes
Shipping Weight 27 lbs

MODEL 6354
We’ve taken our best-selling universal onboard air system and created a 24-volt version that includes a 150 PSI, 100% duty cycle compressor, and a 3 gallon air tank capable of providing compressed air for hundreds of 24-volt mobile uses. The kit also includes a quick-connect tire inflation kit with a 30’ coil hose, tire chuck and storage case.

Model 6354
Two-piece tank & compressor system with 24-volt permanent magnetic motor
Compressor Length (in.) 9.25
Compressor Width (in.) 4
Compressor Height (in.) 6.5
Tank Length (in.) 21
Tank Width (in.) 8
Tank Height (in.) 10

MODEL 6450 Ultra Heavy Duty, Universal Onboard Air System

The model 6450 is our largest and most powerful onboard air system. It includes a WATERPROOF high performance, higher CFM output, 150 psi, 100% duty cycle compressor and a 5 gallon air tank that can power your air horns as well as other accessories like air bags and small air tools. The kit also includes a quick-connect tire inflation kit with a 30’ coil hose, tire chuck and storage case.

OnboardAir™ Systems

Easy-to-install compressed air solutions for many automotive pneumatic needs. Each of the three high performance all-in-one air systems comes with an intake-mounted air filter, and is completely wired and plumbed to speed up your installation. They work great as stand-alone air sources or when paired with any of our air horns. For the most demanding applications, our 100% duty cycle OnboardAir™ 150HD (P/N 7350) comes complete with a quick connect coupling and tire inflation hose to allow you to air up your tires.

P/N 7270 - OnboardAir™ - 130
12-volt permanent magnetic motor
Duty Cycle: 15%
Max. Working Pressure: 130 PSI
Max. Amp Draw: 14 amps
Flow Rate: 1.27 CFM @ 0 PSI
Tank Volume: 1.5 gallons
Dimensions: 16.5” L x 6.5” W x 12.8” H
Shipping Weight: 15 lbs

P/N 7275 - OnboardAir™ - 150
12-volt permanent magnetic motor
Duty Cycle: 50%
Max. Working Pressure: 150 PSI
Max. Amp Draw: 20 amps
Flow Rate: 2.01 CFM @ 0 PSI
Tank Volume: 2.0 gallons
Dimensions: 21” L x 6.5” W x 13.75” H
Shipping Weight: 20 lbs

**DIRECT DRIVE REPLACEMENT COMPRESSOR**

**Model DD-1**

- Type: Conversion Kit
- Overall Length (in.): 3.25
- Overall Width (in.): 3.25
- Overall Height (in.): 4.5
- CFM Output: 2.76
- Amp Draw: 17 amps
- Shipping Weight: 1.5 lbs

**6180RC**

**Included:**
- Installation instructions
- Mounting Hardware (nuts, bolts, locking washers)
- Vibration Isolators
- Inner Check Valve

- 12-volt permanent magnetic motor
- Duty Cycle: 10%
- Max. Working Pressure: 120 PSI
- Max. Amp Draw: 11 amps
- Flow Rate: 1.55 CFM @ 0 PSI
- Max tank size: 0.5 Gallons
- Dimensions: 5.4” L x 3” W x 4.6” H
- Shipping Weight: 5 lbs

**MODEL 6260RC**

A light duty air compressor designed to fill up to a one gallon air tank. The 6260RC features a stainless steel braided leader hose with inline check valve for consistent performance and long life.

**6260RC**

**Included:**
- Installation instructions
- Mounting hardware (nuts, bolts, locking washers)
- Vibration isolators
- Remote intake “Snorkel System”
- Two replacement air filter elements
- Air line for remote mount air filter installation
- Stainless steel braided leader hose
- Check valve

**MODEL 6270RC**

A sealed air compressor designed to fill up to a one gallon air tank. The 6270RC features thermal overload protection to keep the unit from overheating during extended use. Sealed to prevent damage from the elements.

**6270RC**

**Included:**
- Installation instructions
- Mounting hardware (nuts, bolts, locking washers)
- Vibration isolators
- Remote intake “Snorkel System”
- Two replacement air filter elements
- Air line for remote mount air filter installation
- Stainless steel braided leader hose
- Check valve

**MODEL 6275RC**

A medium duty air compressor designed to fill up to a 2.5 gallon air tank. Features include a thermally protected motor and increased CFM output for faster fill times. Sealed to prevent damage from the elements.

**6275RC**

**Included:**
- Installation instructions
- Mounting hardware (nuts, bolts, locking washers)
- Vibration isolators
- Remote intake “Snorkel System”
- Two replacement air filter elements
- Air line for remote mount air filter installation
- Stainless steel braided leader hose
- Check valve

Air Compressors

**6350RC & 6354RC**

**INCLUDED:**
- Installation instructions
- Mounting hardware (nuts, bolts, locking washers)
- Vibration isolators
- Remote intake “Snorkel System”
- Two replacement air filter elements
- Air line for remote mount air filter installation
- Stainless steel braided leader hose
- Check valve

**6354RC**

Step up to 100% duty cycle and 150 PSI performance with a compressor designed to fill up to 5 gallons consistently. Sealed to prevent damage from the elements.

**Model 6350RC**
- Duty Cycle: 100%
- Max. Working Pressure: 150 PSI
- Max. Amp Draw: 21 amps
- Flow Rate: 1.37 CFM @ 0 PSI
- Max tank size: 3.0 Gallons
- Dimensions: 9.25”L x 4”W x 6.50”H
- Shipping Weight: 9 lbs

**Model 6354RC**
- Duty Cycle: 100%
- Max. Working Pressure: 150 PSI
- Max. Amp Draw: 12 amps
- Flow Rate: 1.98 CFM @ 0 PSI
- Max tank size: 3.0 Gallons
- Dimensions: 9.25”L x 4”W x 6.50”H
- Shipping Weight: 9 lbs

**6450RC**

Our largest and most powerful air compressor is now WATERPROOF. We re-engineered the heavy-duty, high output compressor to make it not just water resistant, but WATERPROOF. Rated at 150 PSI this 100% Duty-Cycle compressor produces 1,76 CFM and can easily support a 5-gallon air tank. The compressor is thermally protected and includes a snorkel air intake system to locate the intake up and away from dirt, water and debris insuring years of trouble free service.

**SEMA 2016 “BEST NEW PRODUCT” AWARD**

**INCLUDED:**
- Installation instructions
- Mounting hardware (nuts, bolts, locking washers)
- Vibration isolators
- Remote intake “Snorkel System”
- Two replacement air filter elements
- Air line for remote mount air filter installation
- Stainless steel braided leader hose
- Check valve

**6450RC**

**Model 6450 RC**
- Duty Cycle: 100%
- Max. Working Pressure: 150 PSI
- Max. Amp Draw: 20 amps
- Flow Rate: 1.76 CFM @ 0 PSI
- Max tank size: 6.0 Gallons
- Dimensions: 9.75”L x 4”W x 6.50”H
- Shipping Weight: 11 lbs

---

**PRESSURE SWITCHES**

Heavy duty tank-mount pressure switch regulates the air pressure in your air tank. The pressure switch gets wired to the compressor and turns the air compressor on and off automatically. All feature ¼” NPT inlet threads.

- **2105** 85 PSI on, 105 PSI off
- **2120** 90 PSI on, 120 PSI off

www.kleinn.com (520) 579-1531 Fax: (520) 579-1528
**Kleinn Air Tanks** are proudly made in the USA. They are internally coated against corrosion using Cortec™, which means they won’t rust and will last longer than other air tanks. For long-lasting good looks, all tanks are finished in black epoxy. All Kleinn Air Tanks are rated to SAE J10 and FMVSS 121 compliance for safety.

If you’ve got a vehicle, we have an insanely loud Kleinn ProBlaster™ air horn system for it. Everything needed for a complete installation is included. All Kleinn ProBlaster™ compressors are sealed - which means they are perfect for mounting either in or under your vehicle. In addition, all are equipped with a remote air filter snorkel system that extends the life of the compressor by providing clean, dry air no matter where the compressor is installed.

"HELL YES! THE HORMS BLEW MY SOCKS OFF!!!"  
Tyler R. - Lubbock, TX
**ELECTRIC VALVES**

**VORTEX 4 SERIES**
Vortex 4 Series solenoids are perfect for any basic air valve need, great for both air horns and air suspension systems. These valves are chrome finished and include brass compression inlet fittings for 1/4" O.D. tube.

<table>

**MANUAL VALVES**

**MODEL 310**
Manual pull chain air valve for roof mount air horns. For use with 1/4" O.D. air line.

**MODEL 311**
All brass hand pull lanyard valve for roof mount horns. Honk your horn just like a trucker. The outlet of the valve threads directly into the bottom of roof mount horns. The inlet fits 1/4" O.D. tubing. Includes a heavy duty steel pull cable.

**MODEL 312**
Hand lever valve. Control the flow of air to your horn with this manual lever valve. 1/8" F NPT inlet, 1/8" F NPT outlet.

**SWITCHES**

**MODEL 318**
“The Detonator” Unleash the fury of any Kleinn horn with this red and black flush mount push button. The visible part of the button when installed is 1” in diameter. The button has screw terminals for easy connections.

**MODEL 318M**
“Mini Detonator” Black flush mount push button switch. This is the perfect discreet trigger for any Kleinn horn. The visible part of the button is 3/4” in diameter and is easy to hide.

**MODEL 320**
The Terminator, nickel finish, flush mount push button.

**MODEL 328**
Heavy duty waterproof push button switch with protective rubber cover.

**RELAYS**

**340**
Sealed, 40-amp, 5-post, SPDT Relay (12-volt)

**344**
Sealed, 40-amp, 5-post, SPDT Relay (24-volt)

TOO LOUD? TOO BAD! Kleinn Air Horns
GAUGES & INSTALL

GAUGES
Kleinn heavy duty gauges read up to 250 PSI and have 2" diameter displays that read in both lb/in2 and kg/cm2. 1/4" M NPT air inputs.

1021 - Dash mount air pressure gauge with mounting bracket. Black with chrome trim.
1022 - 2", 160 PSI, illuminated, panel mount single needle pressure gauge
1023 - 2", 160 PSI, illuminated, panel mount dual needle pressure gauge
1024 - Stem mount chrome-plated air pressure gauge.
1025 - Stem mount stainless steel air pressure gauge.
1150 - Inline 160 PSI Air Pressure Regulator
1301 - 160 PSI Illuminated Dash Panel Gauge with On/Off Switch
1302 - Quick Connect Coupler & Relocation Bracket Kit

INSTALL KITS

330 Roof Mount Air Horn Fittings
Make hooking up roof mounted horns quick and easy - and allow enough standoff to route air line to the horn assembly from beneath the mounting surface of roof mounted air horns. Specifically designed for Kleinn Model 401 & 411 Roof mounted horns.

INF-1 Tire Inflation Kit
Includes a 30-foot coil hose with quick connect coupler, quick connect stud, clip-on tire chuck, and deluxe zippered Kleinn logo storage bag.

6810 Intake Relocation Kit
“Snorkel System”
Even if a compressor is water and dust resistant, damage can still be done if dirt and water pass through the intake. A normal filter can prevent small amounts of dust and dirt from entering the compressor but will not protect it against excessive amounts of dirt and moisture that it may come in contact with in normal driving conditions. The “snorkel system” allows you to relocate your compressor’s air intake filter to an area that is clean & dry.

6850 Compressor Wiring/Installation Kit
All the wires, connectors and other parts you need to install a Kleinn air horn system. The kit includes a 5-pin relay, fuse & fuse holder, wire for the compressor and horn, Teflon tape for air fittings and a variety of wire crimps and connectors. Also included is a color coded wiring diagram for hooking up a compressor. (Horn button sold separately).

6870 Split Installation Kit
(for model 230 and 630 train horns)
The Split Installation Kit comes with everything you need to install the Kleinn 230 or 630 Triple Train Horn trumpets separately, without the original mounting bracket. Includes six NPT compression fittings, one 4-way manifold and high pressure rated air tubing.

6854 24-Volt Compressor Wiring Kit.
333 – THE SNIPER™ REMOTE AIR HORN ACTIVATION SYSTEM
Remotely control your air horns from up to 300 feet away with The Sniper™. They’ll never see you coming. Features easy installation and complete instructions. For use with any air horn system that uses a momentary button and electric solenoids. -Not for use with manual valve air horn systems.

KLEINN AIR HORN JUICE™
Kleinn Air Horn Juice™ is a revolutionary anaerobic liquid thread sealant that makes sealing air fittings easier than ever. With just a drop of Juice per fitting, you’ll be able to install fittings faster – and with more peace of mind for a flawless, leak-free installation for your air horn or compressed air system. Kleinn Air Horn Juice™ is available in Single (JUICE-1) and Installer multi-packs (JUICE-6) and packaged in easy-to-use 2 ml vials with instructions included.

**Note: MSDS available upon request**

P/N: JUICE-1
When properly applied, a single 2 ml vial installation pack provides enough Kleinn Air Horn Juice™ to seal 10-12, ¼” NPT fittings – more than enough for any typical air system. Poly bag packaging, with instructions included.

P/N: JUICE-6
Six, 2 ml vials provide enough Kleinn Air Horn Juice™ to install up to 72 ¼” NPT fittings, which will keep installers working quickly and efficiently. Poly bag packaging, with instructions included.
