Sealed Air Systems with Snorkel

If you’ve got a vehicle, we have an insanely loud Kleinn ProBlaster™ air horn system for it. Everything needed for a complete installation is included. All Kleinn ProBlaster™ compressors are sealed—which means they are perfect for mounting either in or under your vehicle. In addition, all are equipped with a remote air filter snorkel system that extends the life of the compressor by providing clean, dry air no matter where the compressor is installed.

The purpose of the “snorkel” is to relocate the air intake to a clean and dry location. Lesser compressors without a snorkel are unable to prevent rain, road water, dirt and dust from entering the compressor, often causing corrosion and damage that will shorten the life of the compressor.

KHS DIMENSIONS

| Horn | 8.25” x 8.25” x 3” |
| Compressor | 6.2” x 3” x 5” |
| Tank | 8” x 7” x 8” |

HK1

Our most compact air horn kit. Two chrome all-metal trumpets 6.5” and 6.5” in length. Compact with high pitch, painful sound. Includes an easy-to-fit 120 PSI, 0.5 gallon air system.

HK2

EASY FIT IN ANY VEHICLE

Dual truck horn with all-metal trumpets 16.75” and 14.5” in length. Think fire truck or ambulance horn but LOUDER! Flat mounting design allows for easy mounting behind the grille, engine compartment, or on frame rails. Includes an easy-to-fit, 120 PSI, 0.5 gallon air system. Available in chrome or XCR2.0™ (black finish P/N HK2-1).

HK2.1

Quad air horn with four tuned trumpets 13”, 11”, 8.5”, and 7” in length. Additional trumpets create a more fully-blended tone while being compact enough to fit almost any vehicle. Includes an easy-to-fit, 130 PSI, 1 gallon air system. Available in chrome or XCR2.0™ (black finish P/N HK4-1).

HK3

LOUDER SOUND and LONGER BLAST

Compact triple horn with all-metal trumpets 14.25”, 11.5”, and 9.25” in length. Produces a startling blended three-tone blast – guaranteed to get attention. Includes an easy-to-fit, 130 PSI air compressor and 1 gallon tank for more blast time. Available in chrome or XCR2.0™ (black finish P/N HK3-1).

HK3.1

HK-EURO

LOUDBOXX

Dual Black ABS trumpets are 15.5” and 10.5” inches in length. Trumpets mount separately, each with its own mounting bracket & solenoid, making them easy to install & freakishly loud. Designed for extreme durability, easy fit & extreme sound. Includes a waterproof 150 PSI, 1.5 gallon air system and all parts needed for installation.

HK4

LOUDBOXX

Quad air horn with four tuned trumpets 13”, 11”, 8.5”, and 7” in length. Additional trumpets create a more fully-blended tone while being compact enough to fit almost any vehicle. Includes an easy-to-fit, 130 PSI, 1 gallon air system. Available in chrome or XCR2.0™ (black finish P/N HK4-1).

HK4.1

LOUDBOXX

Train Horn Sound and EASY FIT

Dual Black ABS trumpets are 15.5” and 10.5” inches in length. Trumpets mount separately, each with its own mounting bracket & solenoid, making them easy to install & freakishly loud. Designed for extreme durability, easy fit & extreme sound. Includes a waterproof 150 PSI, 1.5 gallon air system and all parts needed for installation.

HK5

LOUDBOXX

True TRAIN HORN Sound

Three tuned trumpets, 16”, 14” and 11” in length. Chrome-plated high impact ABS construction. There’s no mistaking the genuine train horn sound of the HK5. When these horns sound off, you’ll swear that you’re standing on the tracks. Includes a waterproof 150 PSI, 1.5 gallon air system and all parts needed for installation.

HK6

LOUDBOXX

The Beast™ Model 230 black ABS triple train horn on flat rack mount. Three tuned high impact ABS trumpets 17.5”, 14.5” and 11.5” in length. Requires 40% less clearance than other full size train horns. Trumpets can be separated from the bracket for easier installation in vehicles that could not otherwise fit full sized train horns. Includes a full onboard air system with 100% duty cycle waterproof air compressor, 3 gallon tank, bonus tire inflation kit with storage bag. Can power your horns & other accessories like air bags and small air tools.

HK7

LOUDBOXX

Our Biggest and LOUDEST Packages

Three chrome trumpets 17.5”, 15.5”, 11.5” in length. Flat rack detachable design allows numerous installation options. Includes a BlastMaster™ valve upgrade kit that pushes 157.3 dB! Includes a waterproof 150 psi, 100% duty compressor, 5 gallon tank, bonus tire inflation kit with storage bag & all parts needed for installation. Easily powers your horns & accessories like air bags and small air tools.

HK8

LOUDBOXX

Our biggest train horn kit! The Demon™ Model 730’s massive & detachable XCR 2.0™ spun steel trumpets (18.25”, 14.75”, 10.5”) allow tons of installation options. Includes a high output waterproof 150 psi, 100% duty compressor, 5 gallon tank and tire inflation kit with storage bag. Can power your horns as well as other accessories like air bags and small air tools. For the clinically insane among you, the 730 can be upgraded by adding an Ultra BlastMaster™ valve upgrade (P/N 6890) – making it the loudest, largest and most aggressive train horn on the market.

HK9

LOUDBOXX

XTREME CORROSION RESISTANT™

HK9-SLIMLINE All the same features as the HK9 but with a 3-gallon slim design air tank that offers more mounting options than the 5-gallon tank.
